_____

PROFILE

Frontend Web Developer with 2 years of experience creating responsive, user-friendly web applications. Skilled in JavaScript, React, Tailwind CSS, and Firebase, with a proven track record of collaborating in team projects to deliver high-quality digital solutions. Adaptable, fast learner, and committed to continuous improvement and innovation.

PROFESSIONAL EXPERIENCE

Frontend Developer (Freelance)   **Jun 2024 – Present**

- Designed and developed responsive client websites and web apps using React, Tailwind CSS, and Firebase.
- Collaborated with clients to translate requirements into scalable, user-friendly solutions.
- Deployed and maintained live projects, troubleshooting performance issues and ensuring smooth updates.
- Delivered projects with a focus on clean UI/UX, accessibility, and mobile-first design.

Volunteer Web Developer   **Jan 2023 – May 2024**

- Built and maintained web apps for community and student organizations, increasing digital reach and usability.
- Worked in cross-functional teams, contributing to planning, development, and design reviews.
- Participated in code reviews and collaborative problem-solving, leading to improved maintainability and performance.
- Assisted with deployments, bug fixes, and enhancements to ensure stable product delivery.

PROJECT HIGHLIGHTS

Resume Builder App — React, TypeScript, Tailwind

- Developed a responsive web app for creating and exporting professional resumes.

- Integrated PDFKit for high-fidelity PDF exports with customizable templates (A4, Letter) and font/color options.

- [Live Demo](#) | [GitHub](#)

Job Tracker — React, TypeScript,Firebase,Tailwind,Shadcn

- Built a job application tracker to log, categorize, and monitor application progress.
- Added filtering, search, and dashboard statistics for better job-hunting insights.
- [Live Demo](#) | [GitHub](#)

Task Manager — React, Firebase, Tailwind

- Designed a task management tool with CRUD features, deadlines, and status updates.
- Focused on clean UI/UX with responsive layouts and real-time syncing with Firestore.
- [Live Demo](#) | [GitHub](#)
